

Course overview

PRINCE2® is universally accepted as a best practice project management method. It is designed to provide a structured approach to managing projects with a view to increasing the likelihood of a successful project outcome. The method can be used for projects of any size or complexity, and provides guidance through clearly defined principles, themes and processes. This course complies fully with the APMG PRINCE2® syllabus, and will prepare delegates well for both the PRINCE2® Foundation and Practitioner examinations.

Why PRINCE2?

PRINCE2® is widely recognized as a world-class project management methodology. Many customers in the UK and across the globe require that PRINCE2® methods are used in the management of their projects, as it provides a common language and a proven structure for aiding successful project delivery. From an individual perspective, many employers search out candidates that have obtained the PRINCE2® qualification, as it shows them that you have a good understanding of how to successfully manage projects using a globally accepted best practice method. So, it can prove to be an important addition and differentiator on your CV and will give you the confidence to move forwards with the management of your projects!

Course objectives and expected benefits

PRINCE2® is widely recognized as a world-class project management method. Delegates will gain a thorough understanding of the PRINCE2 method, and will be shown how to use (and tailor) this method in a real project environment. You will be fully prepared for the Foundation and Practitioner exams, and if you choose a classroom based course you will be able to sit both exams as part of the course. Delegates choosing the e-learning training option will be able to select a date to sit the exams at one of our venues.

Prerequisites

There are no essential prerequisites for this course. However, delegates would benefit from a general awareness and knowledge of project management, and experience of managing a project or participating in a project as a team member

“The most valuable part of the course was the experience of the trainer who handled some difficult questions with good examples”

“Very good instructor and his ability to make lessons flow from one topic to the other was amazing”

“I have been very impressed with the PMIQ set up - it made the training and exam process very straightforward”

“I found your course easy to use and spot on for my needs. I would definitely recommend it to anyone”

“I am pleased to learn that all my colleagues have passed. A good part of this success is due to your ability to explain the subject matter and soothe the nerves of students under pressure. I'd like to thank for your excellent work, and hope that we meet again in the future.”

“Exam went well. Must say the e-learning was spot on, and amply sufficient for both an understanding of the method and an understanding the exams. Found there was no need for the manual. Also liked the summary questions which touched on the previous module - a reach back into what has just been learnt. All in all superb.”

Course content

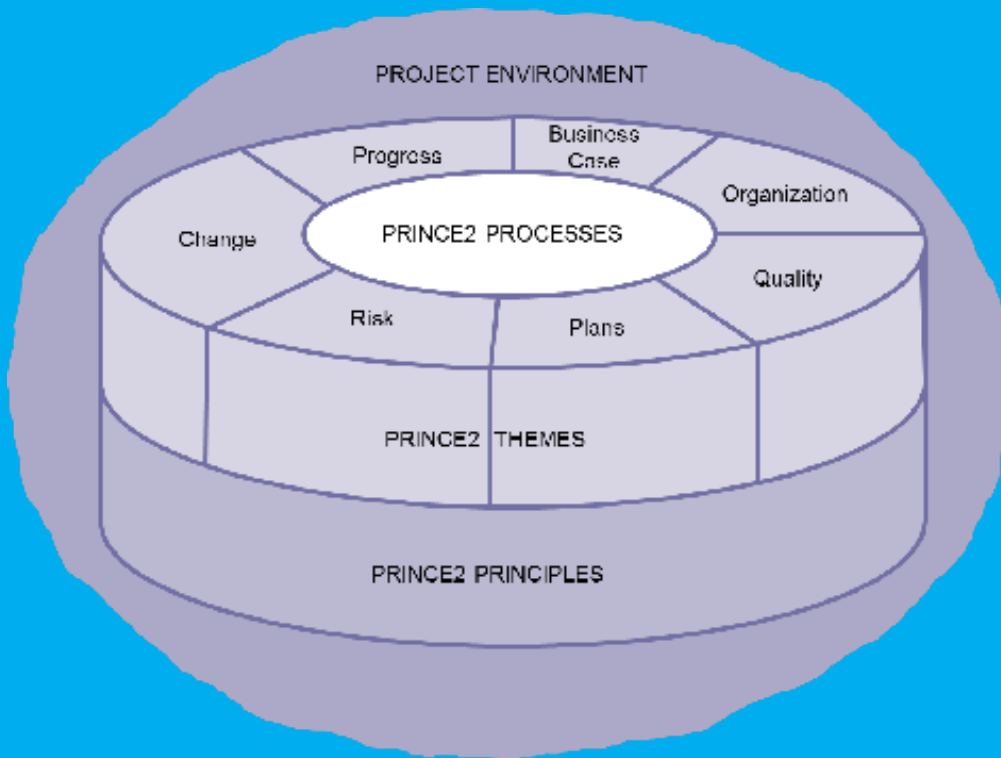

The course will cover the 7 PRINCE2 Principles, 7 PRINCE2 Themes and 7 PRINCE2 Processes and will also address the tailoring of the PRINCE2 method to suit the project environment. The material will cover both the Foundation and Practitioner level, and will prepare candidates for both examinations. The Foundation level is targeted at anyone involved in a project environment who needs to understand the structure, processes and terminology of the PRINCE2 method. The Practitioner shows delegates how to apply (and tailor) PRINCE2® to address the needs and problems of a specific project scenario. This experience will greatly assist in transferring what you have learnt back into your work environment.

What's included?

A printed copy of the PRINCE2® 2009 Manual "Managing Successful Projects with PRINCE2"
Online access to all pre-course study materials and sample exam questions
A Case Study that will be used in the pre-course preparation and will also be used during the course to give delegates a practical perspective and real experience of using the PRINCE2® method
Online access to the e-learning modules (if you chose this learning method)
Online access to all pmiQ supporting materials, including PRINCE2® templates, case studies and podcasts
Our Foundation exam guaranteed pass scheme

Delivery methods:

Classroom

The classroom training is an intensive 5 day course and you can sit the Foundation and Practitioner examinations as part of the course. There is also 10-20 hours of preparation work to complete prior to the course start.

e-Learning

These courses have been developed in-house and provide an excellent choice if you are looking for added flexibility. You can complete the course at your own pace, where and when you wish. Extensive online and telephone support is provided so that you can be confident that you will get all the help that you need.

Corporate/Bespoke

Our classroom courses can be delivered onsite at your facility, and can be tailored if required to meet your needs. Our e-Learning courses can also be tailored (for example to add your company branding), and we can offer discounts for multi-seat purchases.

Exams

There is a PRINCE2 Foundation exam and a PRINCE2 Practitioner exam. The Foundation exam must be passed prior to sitting the Practitioner exam (although the two exams can be taken as part of the same course). The classroom courses include the relevant exam(s). For those choosing our e-Learning option, you can either sit your exams at an exam centre of your choice, or you can now take your exams online from a location of your choice, and at any time of the day you wish.
