

PRINCE2® Foundation

3 days

Course Overview

PRINCE2® is universally accepted as a best practice project management method. It is designed to provide a structured approach to managing projects with a view to increasing the likelihood of a successful project outcome. The method can be used for projects of any size or complexity, and provides guidance through clearly defined principles, themes and processes. This course complies fully with the APMG PRINCE2® syllabus, and will prepare delegates well for the PRINCE2® Foundation examination.

Why PRINCE2®?

PRINCE2® is widely recognized as a world-class project management methodology. Many customers in the UK and across the globe require that PRINCE2® methods are used in the management of their projects, as it provides a common language and a proven structure for aiding successful project delivery. From an individual perspective, many employers search out candidates that have obtained the PRINCE2® qualification, as it shows them that you have a good understanding of how to successfully manage projects using a globally accepted best practice method. So, it can prove to be an important addition and differentiator on your CV and will give you the confidence to move forwards with the management of your projects!
